SUMMARY

Energetic and dedicated Full Stack Developer, well-versed in a wide range of front-end and back-end technologies, with a passion for crafting seamless digital experiences. Proficient in HTML, CSS, and JavaScript, and skilled in modern libraries and frameworks like React.js and Next.js. Equipped with expertise in TypeScript for building robust and scalable applications. Proficient in back-end development using Node.js and Express.js, and well-acquainted with various databases including MongoDB, MySQL, PostgreSQL, and Redis. Excited about utilizing my skills in GraphQL and Prisma ORM to optimize data management.

EDUCATION

Electronics & Computer Engineering

Guru Nanak Dev University Regional Campus 2019 - 2023 CGPA **8.51** / 10.0

Senior Secondary (XII), Science

Montgomery Guru Nanak Public School 2018 - 2019 Percentage **87** / 100

Secondary (X)

St. Joseph's Convent School 2016 - 2017 Percentage **86.2** / 100

PROJECT

Full Stack Twitter Clone

https://github.com/vipul1079/twitter-clone_server, <https://github.com/vipul1079/twitter-client>

Web Application clone of the most famous social media application.

- GraphQL used for fast, and efficient API calls.
- Prisma ORM
- Build using the latest tech stack.
- Learned about how to work and integrate different frontend and backend frameworks.

Pet Adoption :Web Application

<https://github.com/vipul1079/PetAdoptionClient>, <https://github.com/vipul1079/PetAdoptionServer>

Web application build using MERN stack.

- Proper MVC structure at the server side code.
- Client side coded using ReactJs and Material-ui.
- Learned about how single page web application work and got to know about how to work with redux for state management.
